Seymour Fire Rating Top 10% In The Nation!

Seymour Mayor Jim Bullard and Fire Chief Fred Hines recently announced that Seymour's Insurance Service Office (ISO) rating was moved to Class 4 from Class 5, which now ranks the Seymour Fire Department among the *top 10% in the nation*.

The ISO is the leading supplier of statistical underwriting and actuarial information for the property and casualty insurance industry. Many insurance companies use the classifications for calculating premiums for residential, commercial and industrial properties.

"I'm very pleased with the new rating. We have worked very hard for many years to make the Seymour Fire Dept. a first class operation. We plan to continue to find ways to protect the property and lives of the citizens we serve", Hines said.

"We want to applaud the diligent efforts of the Seymour Fire Dept. and Indiana-American Water Company for their part in elevating our new fire protection rating", Mayor Bullard said.

Wynn Wright of Indiana-American Water Co. stated "We've made significant improvements to our treatment facilities and the community's distribution system here, helping to provide a high quality product residents can depend on, and enhancing our firefighters' ability to protect businesses, homes and families in emergency situations."
