

## **TWO NEW BUILDINGS AT EAST SIDE INDUSTRIAL PARK (July 2005)**

A new 105,000 square foot building was completed this spring at Seymour-Jackson County's East Side Industrial Park. Two months later, a second facility of 100,000 square feet was underway.

The county's largest employer, Aisin U.S.A. Mfg. Inc., purchased an existing building that was being leased by Lexmark for their customer fulfillment center. That purchase necessitated the need for construction of the 105,000 square foot facility for Lexmark. That building was completed this past spring and Lexmark is now in operation in the new facility.

In July, construction began on a second building and completion is expected by year end. This 100,000 square foot facility, being developed by Whittymore/King LLC, is in response to a demand for manufacturing/warehousing space.
